	JPI	" JPst	S	2raz P	125 JPe	
Raster Format Size						
Up to DIN A2 ("C") @ 300 DPI, 16,000 x 16,000 Pixels, Max. Total: 36 Million Pixels Unlimited						
General Features Available with All Products						
TWAIN Support for Generic Scanners (Direct Large Format Scanner Interface see below)						
Extensive Hybrid Editing and Plotting (Raster and Vector)						
Automatic Raster Cleanup (B/W and Color)						
Full Set of CAD Drawing Functions						
Intelligent Object Snap (Raster and Vector)				_		
Multipage File Support <sup>2</sup>						
Enhanced Hybrid Editing						
Extended Raster Selection						
Raster Symbol Search						
Text Editing (Raster and Vector)						
Combine/Clean/Trim Functions for Entities (Raster and Vector)						
Raster Morphology: Thicken/Thin Lines, Open/Close Areas (B&W and Color)						
Rubber Sheeting: Multi-Point, 4-Point						
Extensive Split, Merge Functions						
Blocks with Attributes (Raster/Vector/Hybrid)						
Raster Table Recognition (B/W and Color)						
Dimensioning (Raster and Vector)						
Color and Gray Scale Management						
Automatic Color Cleanup						
Palette Transformation, Color Separation, Binarization						
Automatic/Interactive Color Reduction						
Automatic Raster-to-Vector Conversion						
Centerline, Outline (Contour), Mixed Vectorization, Vectorization Wizard for Easy Settings						
Recognition of CAD Entities, Hatches, Text (OCR)						
Entity// inc. Type// inc. Width Classification (Levering)						
Entity/Line Type/Line Width Classification (Layering)						
Symbol Recognition (Quick Mode and Advanced Mode)						
Symbol Recognition (Quick Mode and Advanced Mode)						
Symbol Recognition (Quick Mode and Advanced Mode) Interactive Tracing/Line Following						
Symbol Recognition (Quick Mode and Advanced Mode) Interactive Tracing/Line Following CAD Entity Tracing						
Symbol Recognition (Quick Mode and Advanced Mode) Interactive Tracing/Line Following CAD Entity Tracing Contour Lines/Polylines Tracing						
Symbol Recognition (Quick Mode and Advanced Mode) Interactive Tracing/Line Following CAD Entity Tracing Contour Lines/Polylines Tracing Special Features						
Symbol Recognition (Quick Mode and Advanced Mode) Interactive Tracing/Line Following CAD Entity Tracing Contour Lines/Polylines Tracing Special Features Direct Large Format Scanner Interface (Colortrac, Contex, GTCO, Océ, Vidar, Xerox)						
Symbol Recognition (Quick Mode and Advanced Mode) Interactive Tracing/Line Following CAD Entity Tracing Contour Lines/Polylines Tracing Special Features Direct Large Format Scanner Interface (Colortrac, Contex, GTCO, Océ, Vidar, Xerox) Rasterizing (DXF to TIF, DWG to TIF, etc.)
